

## HYBRID IN-PERSON LEARNING ATTENDANCE

**Students who are participating in hybrid in-person learning are expected to be present for in-person learning on their assigned days.** *They do not have the option of choosing to use remote learning for a given day unless the reason has been approved by the school administration and notice has been provided to the Attendance Office.* These reasons should be limited to such things as a scheduled medical appointment or a given family situation such as a funeral.

As always, students who have an illness should remain at home unless the illness has passed. The following protocols would then be in place:

- Parents must call the Attendance Office by 8:00 AM on the day the student will remain home.
- When doing so, they need to provide the symptoms the student is experiencing so that we can monitor the health and well-being of the larger school community.
- If a student exhibits any symptoms that could be indicative of COVID-19, the school nurse will be in contact with the family during the day to gather more information regarding the onset of the symptoms and any other medical issues that may be needed to help determine his ability to return to in-person learning.
- *It is important that families provide this information to the nurse as we may need to initiate contact tracing in a timely and reliable manner.*

Your cooperation and support in these areas is greatly appreciated.

## SUGGESTIONS FOR REMOTE LEARNING SUCCESS

Below are strategies for success when working remotely:

- Establish a daily routine – wake up, get dressed, have breakfast, etc.
- Sit at a table or desk in an area that provides reliable internet service, i.e., closer to the router or hotspot.
- During a study hall or upon completion of work when working asynchronously, stretch, walk around to get some movement.
- Have a regular bedtime each day; having different bedtimes on nights before in-person and remote learning days creates irregular sleep patterns that produce sluggish or tired behavior on in-person days.

If you have a problem with your internet connection, email the teacher *immediately*.

### **SUPPORT FOR STUDENTS**

Saint Patrick High School strives to support our students in their academic and social-emotional well-being. To do so, we offer the following suggestions for students who may need support in these areas.

#### **ACADEMIC SUPPORT**

If a student needs help in a class, the best source of support is his regular classroom teacher. We encourage the student and his family to contact the teacher via email to notify the teacher of his concerns. We also encourage him to use Faculty Office Hours to get additional help and support outside of the regular class time. Students should notify their counselors of their concerns as well as the counselors can provide additional strategies for academic success. If, after contact with the teachers and counselors, the administration is also able to offer additional support.

#### **SOCIAL-EMOTIONAL SUPPORT**

Students who need social-emotional support should contact their counselors. Counselors can meet with students both in-person and virtually to provide guidance and help. Families are also encouraged to contact their sons' counselors with any concerns in these areas.
