

Saint Patrick High School 18-19 Cheerleading Team Tryouts

The SPHS Cheer team is a cheerleading team for the Saint Patrick High School football and basketball teams. This team's main focus is school spirit and game day cheer. The team does practice and work toward higher skills to build each individual member's skill in the sport of cheerleading in order to be as competitive as other cheerleaders in the state. The SPHS team participates in team bonding throughout the year to create a family bond with each other and gives back to the community by volunteering when possible for various groups and organizations.

Useful information before attending tryouts:

- All Clinic days and Try-out day are mandatory.
- Tumbling is not a requirement but it is preferred (the will to want to learn and the drive to learn is a requirement for tumbling).
- Tryouts will be judged by three outside individuals, not the coaches. All decisions on cuts and placement are final after the approval of placements by coaches.
- Saint Patrick High School is a varsity only team and does not have a JV Cheer program.
- If you need to be in contact with the head coaches for any questions, comments or concerns, please contact them at sphscheer00@gmail.com.
